

# WORKING TOGETHER FOR OUR PLANET

When we're so focused on the big picture, sometimes it's easy to miss the small improvements that can really make a difference. So if you'd like to play a part, join our initiatives and let us know your suggestions.

## JOIN OUR RECYCLING EFFORTS

Separating waste for recycling ensures it won't end up in landfill. So please help us and recycle carefully using the clearly marked bins around the hotels.

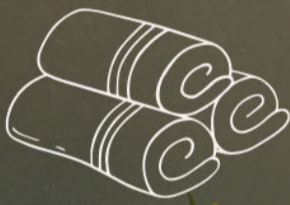

## SEE IT AND SAY IT

For better use of resources, we set annual goals, so please let us know as soon as possible about any water leaks or electrical issues in your room or elsewhere in the public areas of our hotels.

## RE-USE YOUR TOWELS

Many guests support our environmental initiative by using their bathroom towels more than once, so please join them by re-using the towels in your room whenever you can.

## STAY PROTECTED

It's essential to protect your skin from the sun and protect the ocean and pools from damaging chemicals. So where possible please choose a sunscreen that uses physical or mineral filters.

## TURN IT OFF

Leaving your engine running while waiting is easy to do, but it impacts the environment too. So if you rent a car while staying with us, please turn the engine off whenever not in use.

## MAKE A SUGGESTION

Sustainability is a two-way conversation, so please feel free to ask us questions or make suggestions on how we can improve.
